

# Miraculous Alignment (Tawafuq) in the Quran

## What is the Alignment Feature?

**Miraculous Alignment literally means synchronicity of things.**

There are many and various alignments in the Qur'an.

The most obvious one is the alignment of the word "Allah"

# Names of Allah in the Qur'an

Names of Allah are at the same alignment  
**beneath each other** on the same page

Names of Allah  
**overlap each other** at the some pages

Names of Allah **face each other** in opposite pages

**Special alignments on the last page of Surah (Chapter) Al Hadid and first page of Surah Al Mujadilah.**
